

## Mission & Objectives

- Generate/Apply/Diffuse knowledge in the field of industrial & systems engineering.
- Integrate engineering & management processes in complex industrial issues.
- Embrace a broad spectrum of technical, organizational, principles & business skills.

Conduct applied research on Industrial Organization and Management of Industrial systems, Technology, Energy and Environment

## Research Groups

## Resources & Main Achievements (last 3 years)

27 Full Members & 20 Collaborators & Researchers

67 Papers published in International Journals

8 Funded Research Projects

12 Models | 8 Software | 1 Pilot Plant | 2 Prototypes

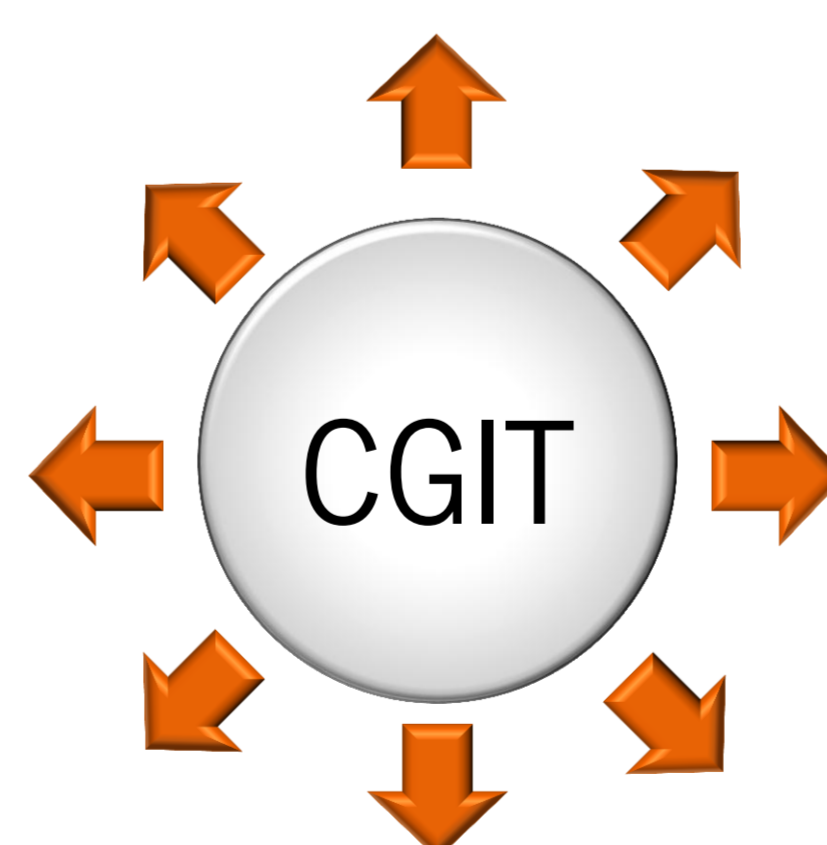

> 300 Papers in International Proceedings

37 Ongoing Ph.D. Thesis Supervision

9 Ph.D. Thesis Concluded

13 Congresses/Symposium Organized

> 20 External Collaborations (UDelft, UGroningen, UCranfield, UGalway, UVigo, UBarcelona, UFRJ, PUC\_SP/RJ, UBrasília,...)
